DACOR REGULATORS

FOR SAFETY,
PERFORMANCE, DEPENDABILITY
MADE TO LAST A LIFETIME

NOW WITH
FIVE YEAR
GUARANTEE

MODEL R-4 "DIAL A BREATH"

The world's only Double Diaphragm two stage Regulator — offers double safety and performance. Either diaphragm can become ruptured or inoperative and regulator will continue to operate safely. Ten years of proven dependability and unequalled service free operation.

\$89.50

MODEL C-2 "CLIPPER"

Also with "Dial A Breath" for adjustment to easier breathing, if desired. Two stage Regulator — Down stream second stage valve and large piston action diaphragm.

\$69.50

New 1st stage and venturi action 2nd stage!

affords uniform breathing with maximum volume at all depths. Both models incorporate same proven features and dependability which were designed in previous Dart model which was tested, with perfect performance, to depths of 7,000 ft.

DACOR PAK

**MODEL
DP-1**

Heavy die cast aluminum plate which has rugged side rails to prevent movement on tank. Held by double bands, bolts and nuts. High gloss baked enamel finish. Built-in hand grip for easy carrying — Nylon harness — Chrome plated brass hardware.

Model DP-1 For Single Tank Only **Cost \$10.95**

CUSTOM D-PAK

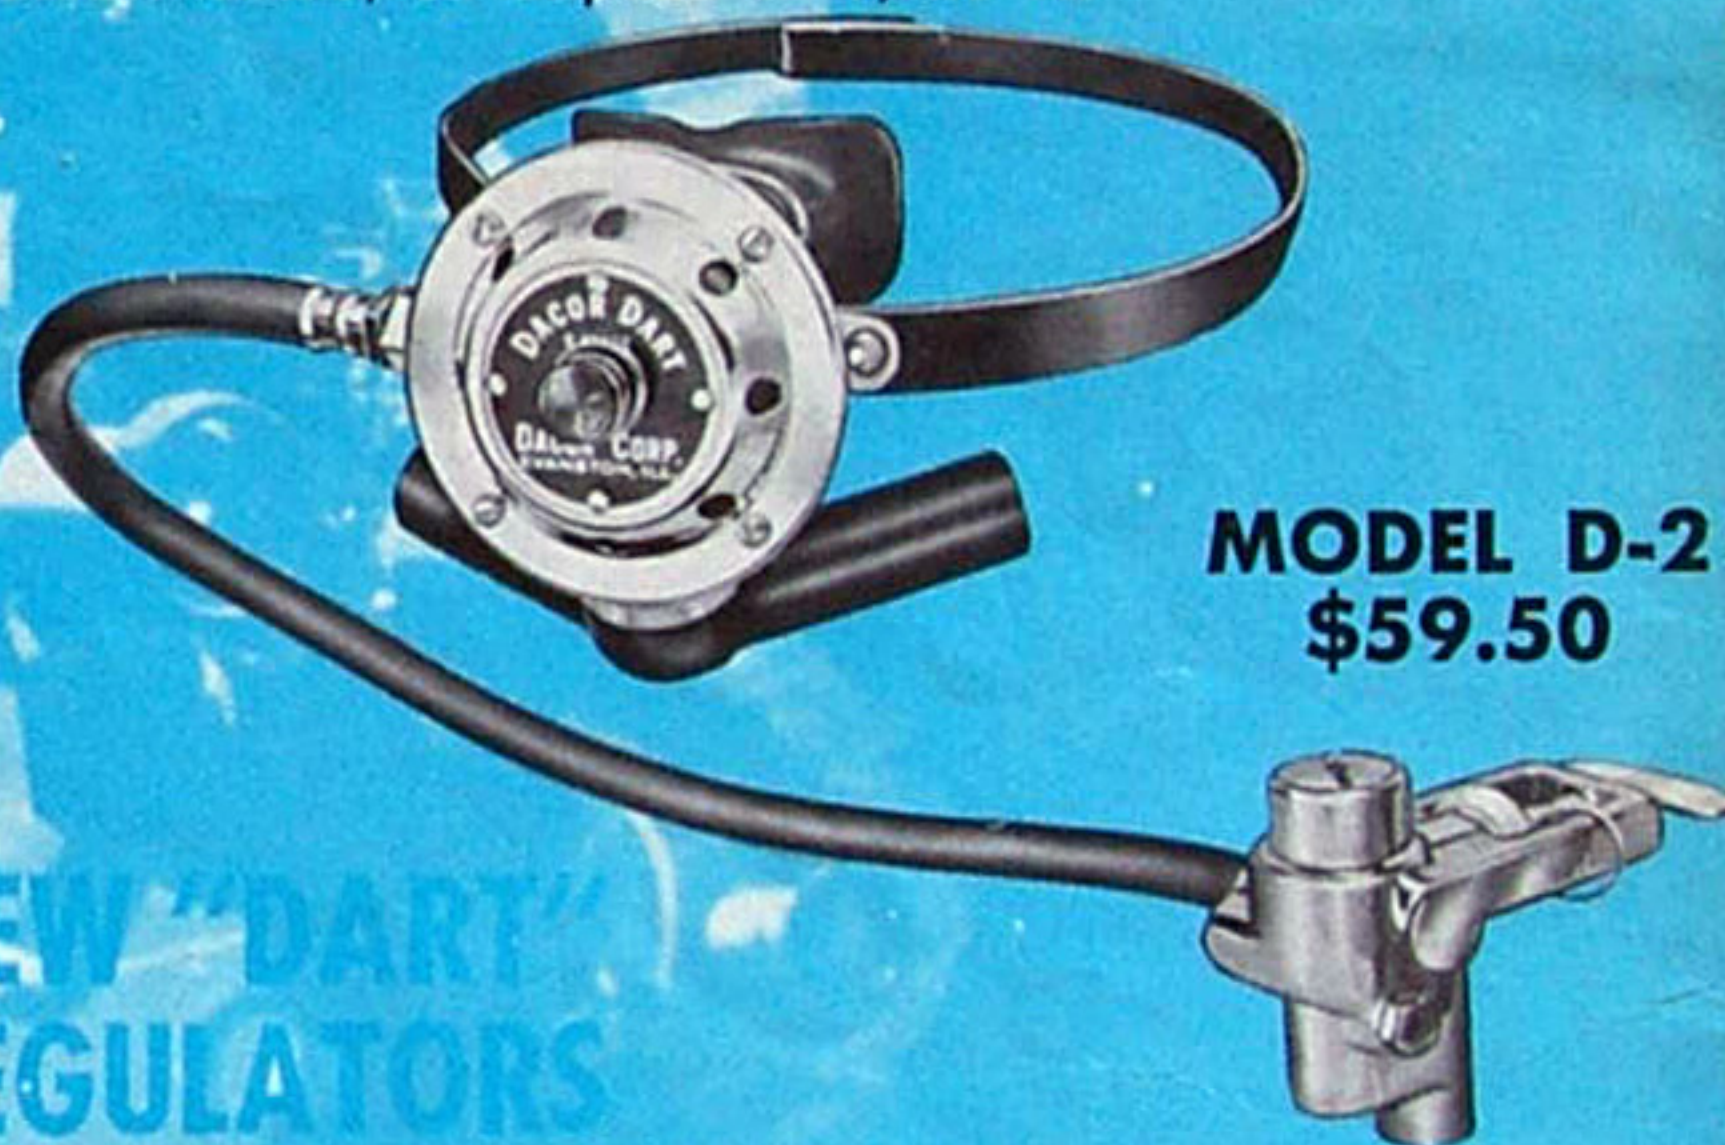

Model CDP-1 For All Single Tanks **\$19.50**
CDP-2 For Double Tanks **19.50**

The Custom D-Pak assembly has two bands which hold the tank more securely. The perfect contour design of D-Pak makes it possible to have one quick release only (Top Band) for fast removal of assembly.

When top band is drawn to a locking position, upper area of Pak moves closer to tank and bottom area moves slightly outward, thereby making both bands tight on tank. Adjustable for all sizes of diving tanks — Black nylon webbing — Heavy gauge aluminum back pak — "NO SLIP" slides prevent tank from moving when waist strap is unfastened.

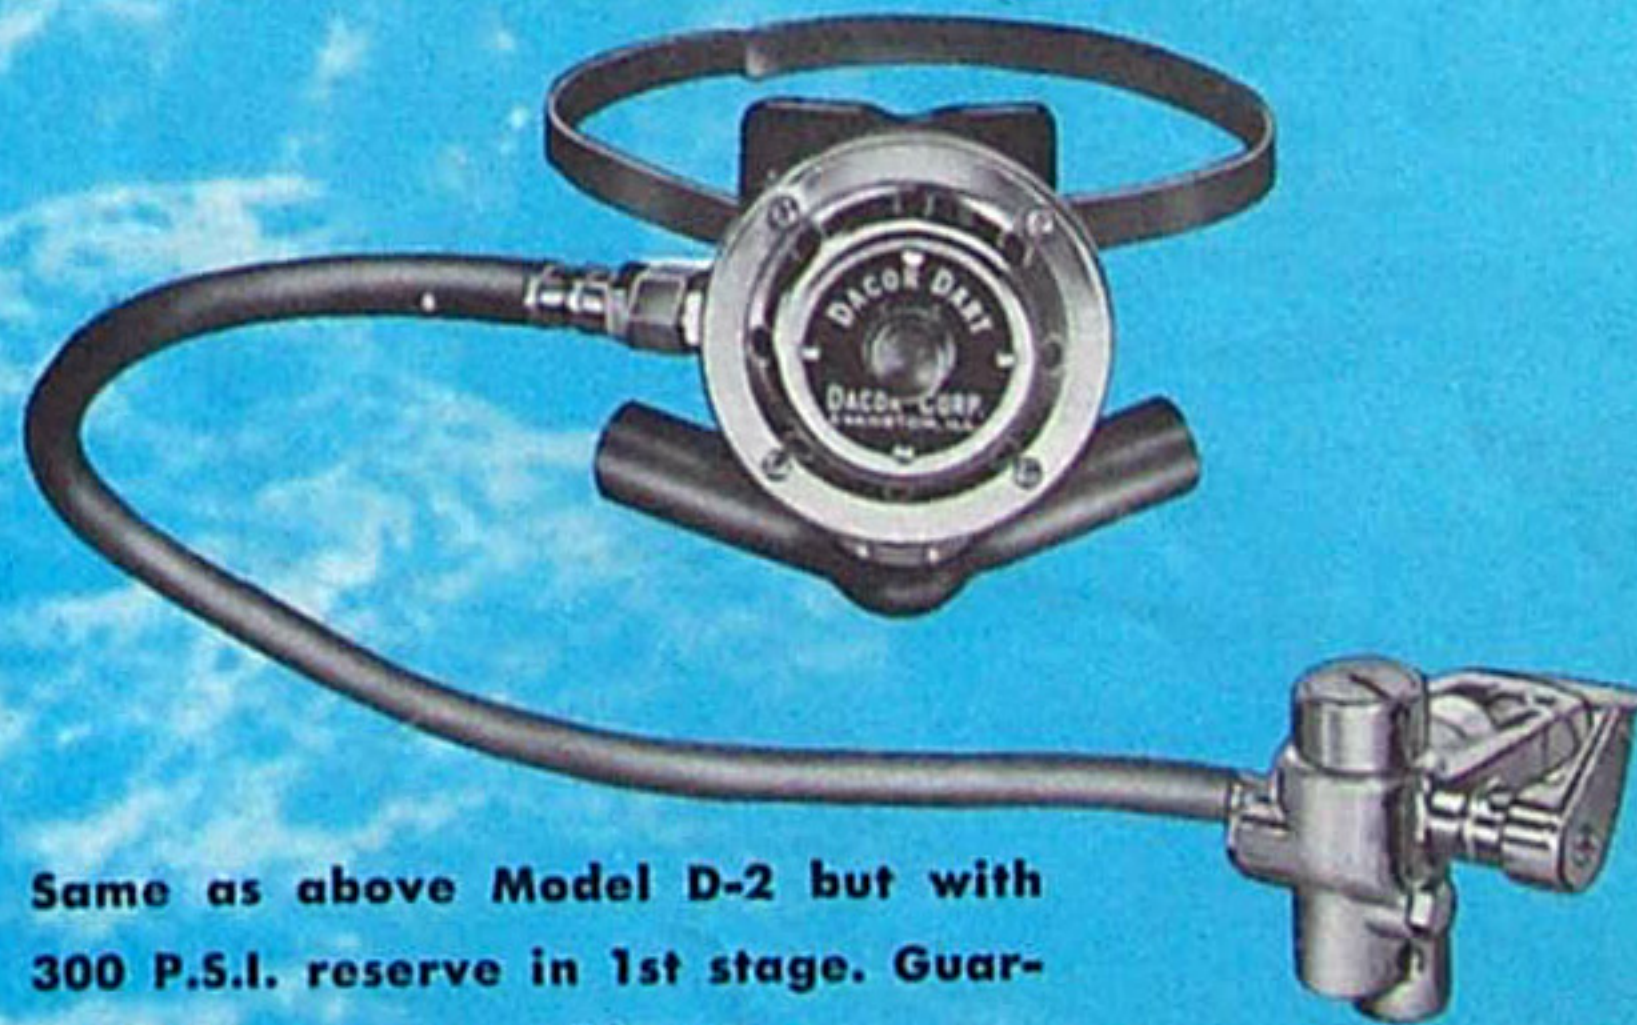

Glossy "THERMO-COAT" finish.
BLACK OR BLUE

NEW "DART" REGULATORS

**MODEL D-2
\$59.50**

- Air Pressure gauge and surface air supply connectors
- Flexible "V" shaped exhaust tube directs air bubbles away from face
- Both regulators are two stage design with rugged forged brass first stage body.

Same as above Model D-2 but with 300 P.S.I. reserve in 1st stage. Guaranteed accuracy within 5%.

**MODEL DR-2
\$75.00**

The New and Sensational "Triton" Models

**TEMPERED SAFETY LENS
STAINLESS STEEL RING**

Incorporates a new and easy way to equalize with a slight upward movement of mask with hand or arm—The equalizer pads block nostrils completely—Now equalization of ears is real easy with gloved hands. A unique new rubber body with purge valve provides a perfect seal with no leakage—High quality soft rubber gives more comfort and better seal.

DM-12 With Purge Valve And "E" Pads \$6.95
DM-13 With Purge Valve Only 5.95

**CUSTOM
CONTOURED -
BEAUTIFULLY
STYLED**

COLORS — Black Or Blue

"See-Rite" Models

Provides up to 20% more side visibility. A unique new rubber body with purge valve provides a perfect seal with no leakage—High quality soft rubber gives more comfort and better seal.

DM-14 With Purge Valve \$5.95
DM-15 Without Purge Valve 4.95

Slanted design for greater visibility. Tempered safety lens. Extremely comfortable face seal, designed to prevent leakage. Stainless steel retaining ring. Made of highest quality blue or black rubber.
More masks of this type are used than any other

Model DM-10 \$4.95

"Universal" Model

NEW "Corda" FINS ADVANCED DESIGN

**TECHNICAL
PERFECTION**

**COMFORT-
QUALITY-
PERFORMANCE**

Evaluation of all three essentials will add up to make "Corda" the preferred fins. They will more than satisfy the demands of divers under all conditions.

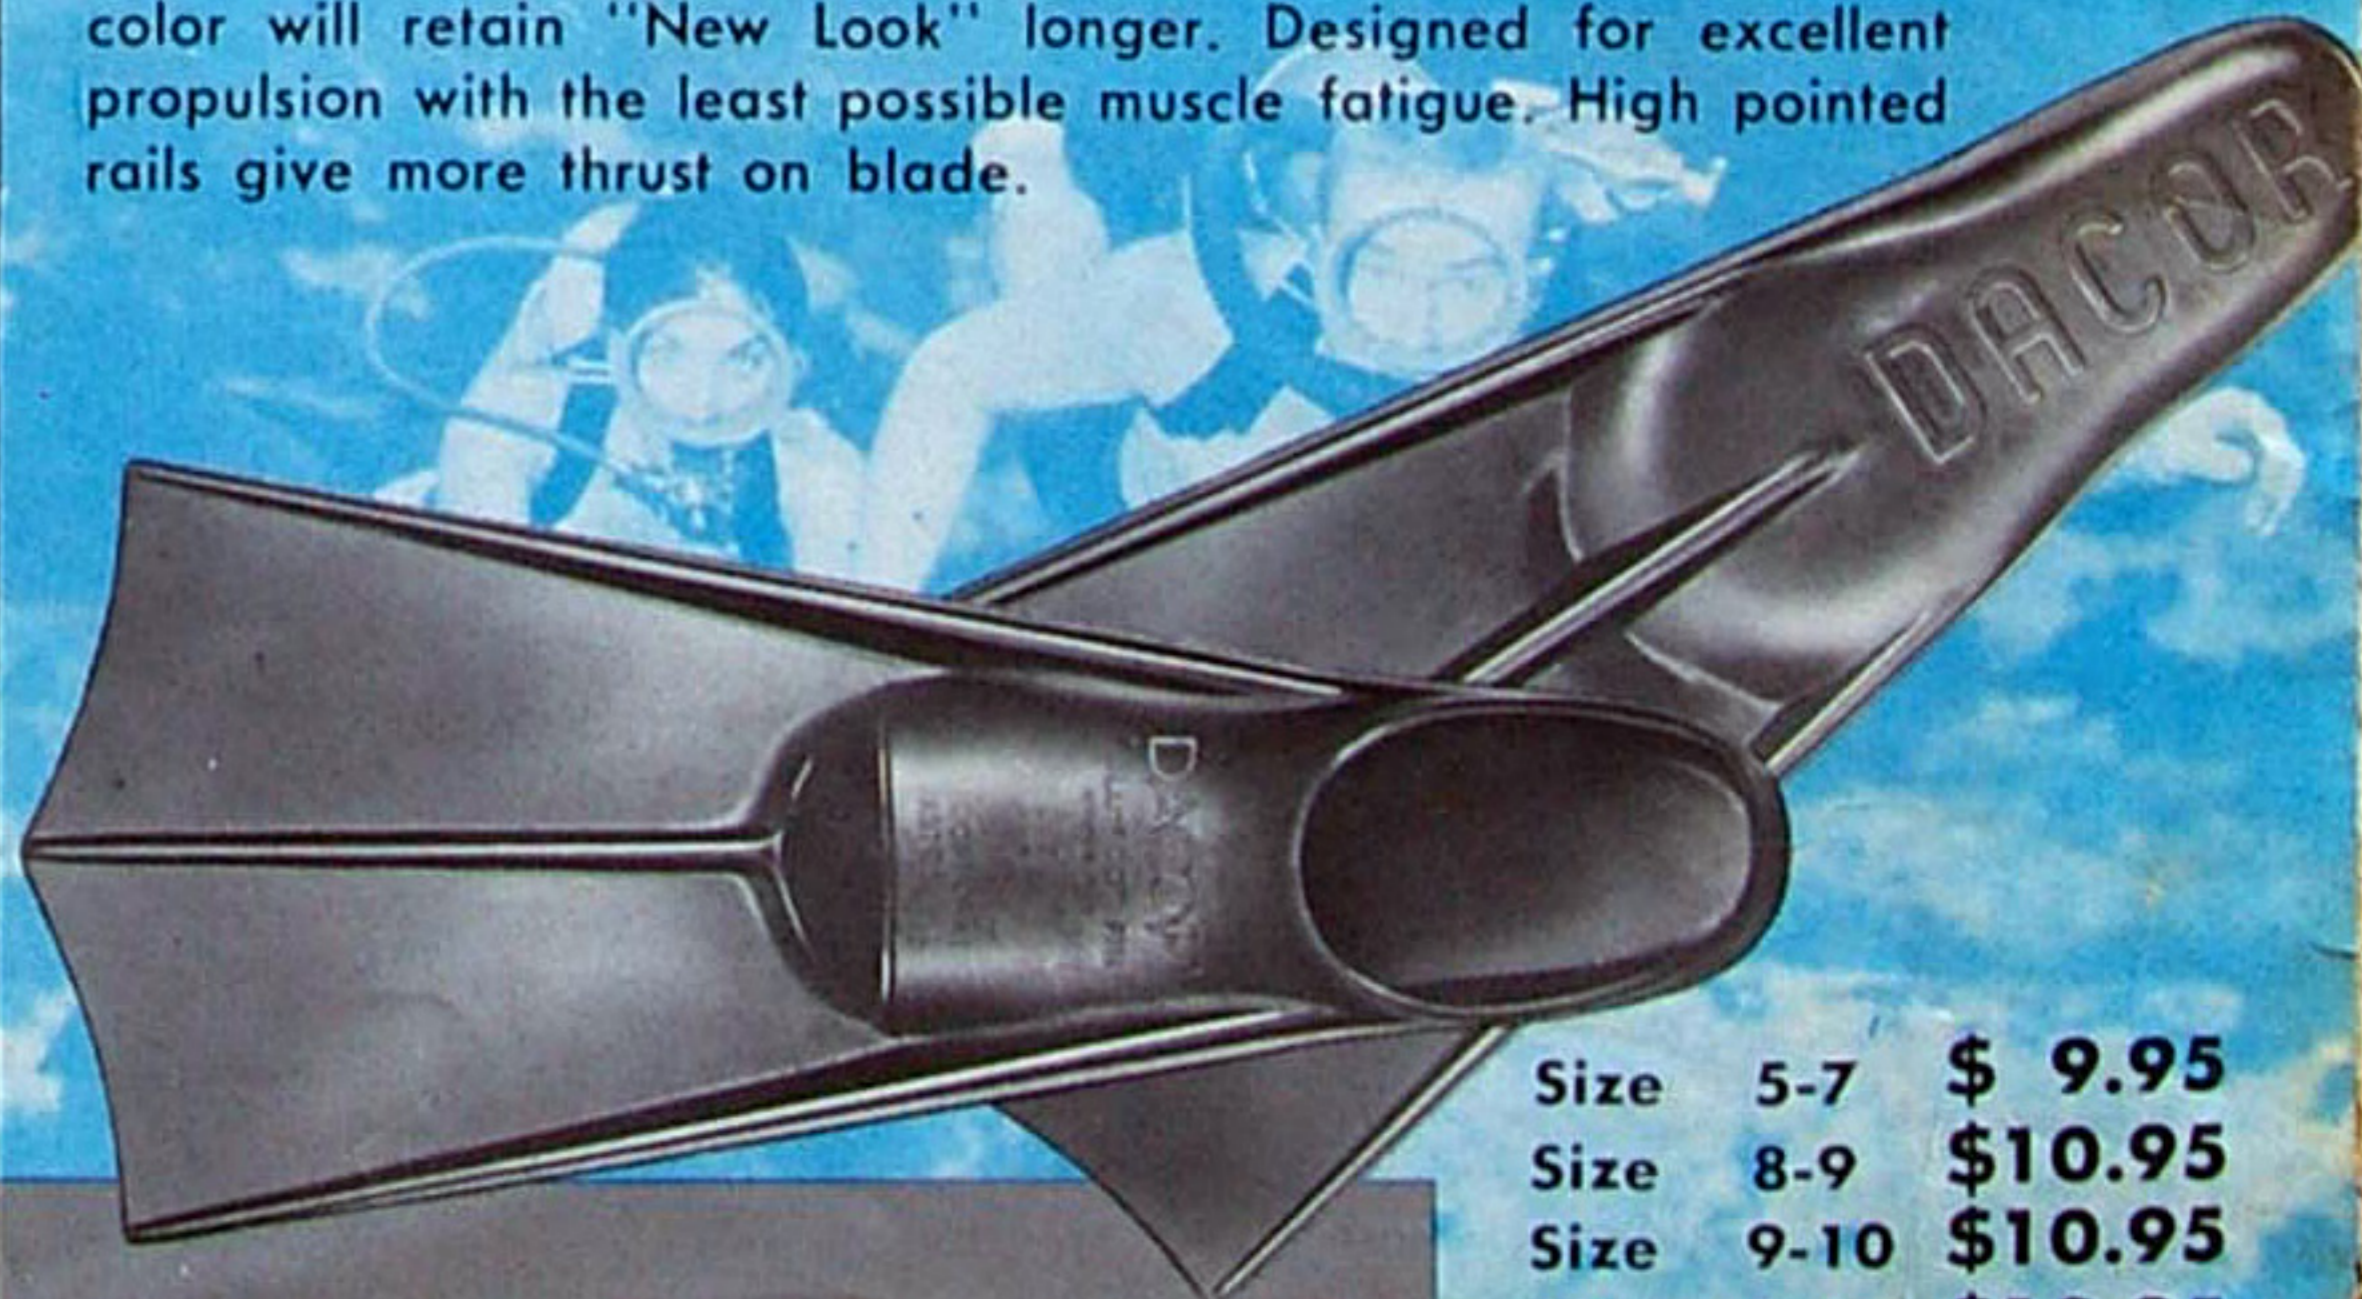

- Made with shoe comfort.
- Molded of high quality rubber.
- New design blade for maximum power.
- Full foot protection.
- Light weight with perfect balance.

Accessories

FOR CHECKING TANK PRESSURE

EXCLUSIVE DESIGN By DACOR

DELUXE PRESSURE GAUGE

PG-C

\$10.95

All brass construction, bright chrome plated. Body machined from solid brass bar stock. Forged yoke and screw. Large knurled relief screw for easy turning. Yoke swivels, enabling gauge to be turned for reading.

ACCESSORY INFLATOR

Built-in restricted orifice to reduce air volume for slower inflation provides safety. For use in filling auto tires, inner tubes and other inflatable items. Attach to diving cylinder valve for inflation needs.

\$7.95

FAMOUS DACOR "LOW BOY" VALVES

"LOW BOY"

Spring loaded reserve valve. Bright chrome finish. Large round knurled shut-off knob. 300 P.S.I. reserve. New simplified design for accuracy and service free operation.

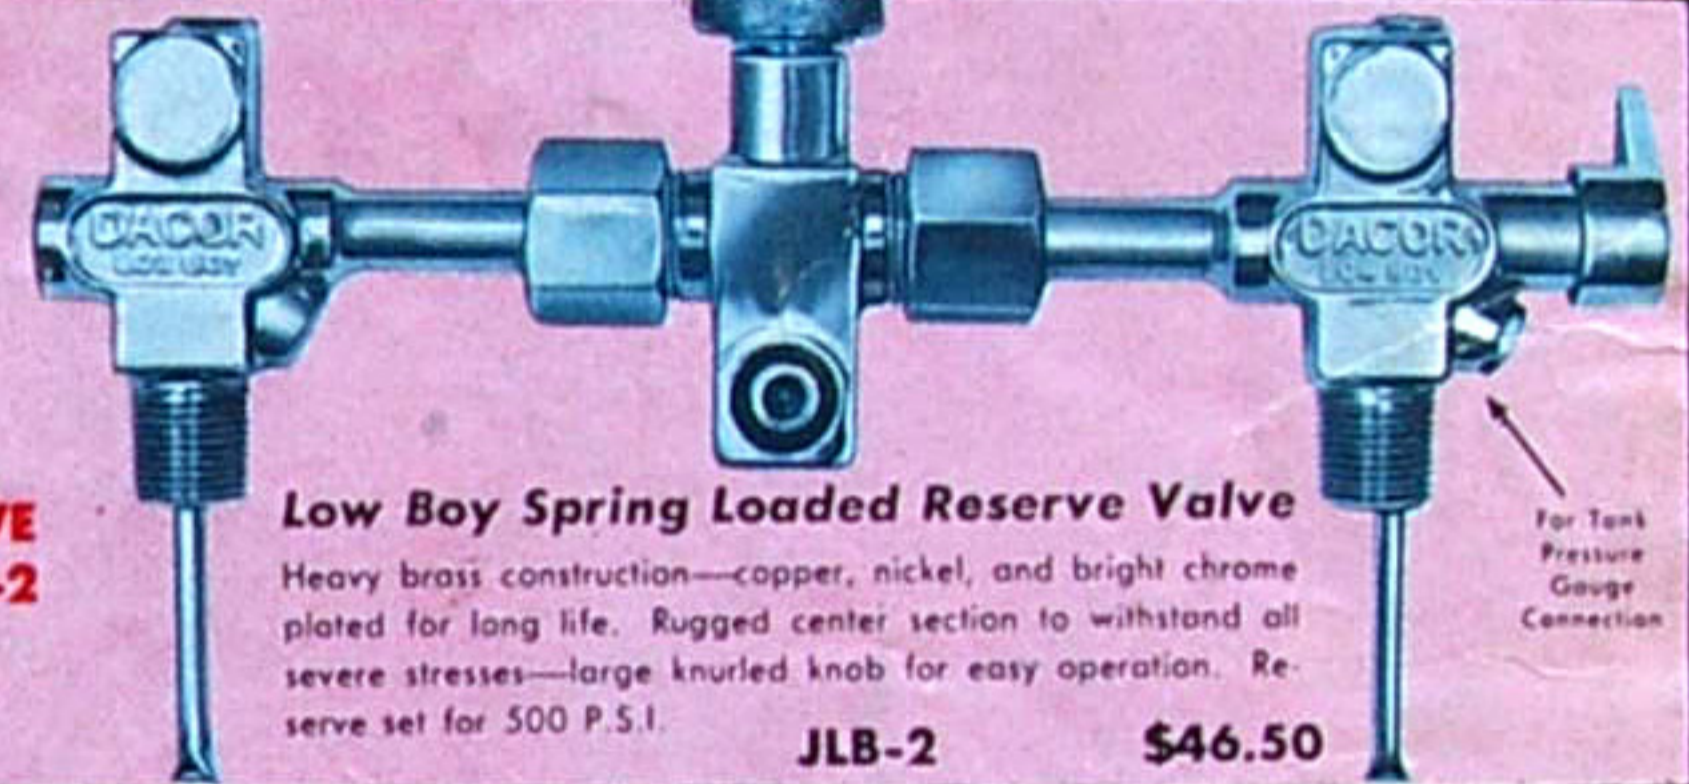

JLB-1 \$29.50

MODEL KLB-1 VALVE (No Reserve) Standard "K" Low Boy

Heavy brass construction with copper, nickel, and bright chrome finish—large knurled knob for fingertip operation.

KLB-1 \$14.95

DOUBLE TANK VALVE MODEL JLB-2

Low Boy Spring Loaded Reserve Valve

Heavy brass construction—copper, nickel, and bright chrome plated for long life. Rugged center section to withstand all severe stresses—large knurled knob for easy operation. Reserve set for 500 P.S.I.

JLB-2 \$46.50

DART PRESSURE GAUGE

Gauge is attached to harness for easy reading of tank pressures at all times. Rubber covered case for protection against damage. Attached to 1st stage connector.—10,000 P.S.I. high pressure hose.

Model DPG

\$20.00

DEPTH GAUGE

"THIN LINE"

Now the perfect depth gauge — low height, compact, brass case, chrome plated. Accurate within 2%, all depths. Luminous dial — 100 ft. — 200 ft. models. Protected by one piece molded rubber case and strap. Fully guaranteed. Widely accepted because of thin design, appearance and comfort.

Models DGR-100 and DGR-200

\$10.95 each

QUIK-DITCH WEIGHT BELT

- Rugged stainless steel quick release buckle.
- Two inch nylon belt.
- The round connector of the two buckle parts assures uniform closed pressure. Belt can't slide when closed.
- This construction also guarantees "Full Open" when buckle is opened during any emergency.

COLORS:

Yellow — Blue — Black.

\$3.95
