CRESSI RONDINE FINS

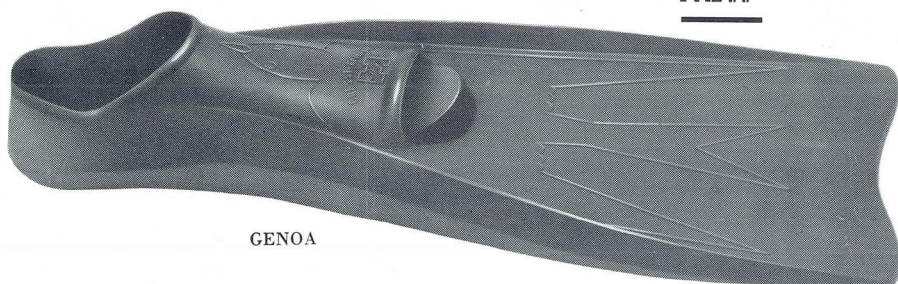

COMPETITION

FIXE PALME SAFETY STRAPS

NEW

GENOA

NEW

WHY RONDINE FINS OUTSELL ALL OTHERS FIVE TO ONE. Created by Cressi, the Rondine Fins have achieved worldwide acceptance as the finest in design, construction, fit and performance.

Only the Cressi Rondine offers these outstanding features: Blade angle which provides maximum thrust with minimum effort. Original full foot, open toe design which ensures a comfortable fit. Sizes that increase in width as well as length in the proper proportions. Specially integrated rubber compounds for light weight and less bulk and assures a comfortable fit with efficient blade action.

THE COMPETITION

Now molded of a new discovery in natural rubber compounds with the live spring action that assures maximum thrust and power and yet provides the diver with a soft comfortable fit. The Competition Fins are equipped with the Fixe Palme Safety Straps for absolute fin security under the most turbulent conditions.

CAT. NO.	SIZE	COLOR	PRICE
1395	7-9	Black	\$16.50
1396	9-11	Black	\$16.50
1397	11-13	Black	\$17.50
1398	13-16	Black	\$17.50

THE GENOA PROFESSIONAL NEW FLOATING COMPOUND

The Genoa Professional is now made with a new floating rubber compound which provides the extra propulsion that only the highest quality rubber can offer. This new compound provides the fin tip and side rigidity and at the same time offers form-fitting comfort.

CAT. NO.	SIZE	COLOR	PRICE
1330	5-7	Black	\$11.75
1331	7-8½	Black	\$11.75
1332	8½-10	Black	\$11.75
1333	10-12	Black	\$12.50
1336	12-14	Black	\$12.50

FIXE PALME SAFETY STRAPS

The Fixe Palme Safety Straps are designed to hold any closed heel fin to your foot under the most turbulent conditions.

CAT. NO.	SIZE	COLOR	PRICE
1370	7-11	Black	\$2.50
1371	9-16	Black	\$2.50

SOUVENIR PEARL OYSTERS

Imported from the cultured pearl beds of famous Ago Bay, Japan. Guaranteed to contain one pearl or more in the original mother-oyster about three years old. Sealed in a celluloid can containing a special preservative to insure freshness (NON-EDIBLE).

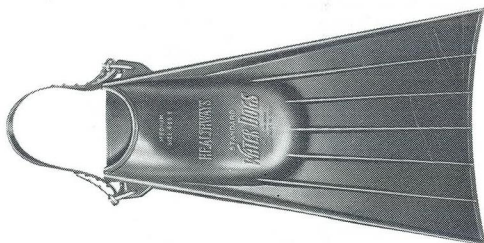

CATALOG NO. 1900 PRICE \$2.50

Pearl Oysters are available in bulk containers for club promotions, "Pearl Dives" etc. Write Healthways for prices and delivery requirements.

B

THE MEDITERRANEAN—FLOATING COMPOUND

The Mediterranean fins are molded of a special light weight compound that allows them to float and yet provides the fin tip rigidity and rugged construction desired by all divers.

CAT. NO.	SIZE	COLOR	PRICE
1350	5-7	Blue	\$11.75
1351	7-9	Blue	\$11.75
1352	9-11	Blue	\$11.75
1353	11-13	Blue	\$11.75

THE CORMORANT

The Cormorant is molded of a black rubber compound that provides rigid but light-weight construction and assures maximum propulsion and foot comfort.

CAT. NO.	SIZE	COLOR	PRICE
1340	5-7	Black	\$9.95
1341	7-9	Black	\$9.95
1342	9-11	Black	\$9.95
1343	11-13	Black	\$9.95

THE CORONADO

The Coronado is molded of a new dark blue rubber compound that provides an exceptionally light weight and comfortable fit with fin tip rigidity for maximum thrust.

CAT. NO.	SIZE	COLOR	PRICE
1320	5-7	Blue	\$8.95
1321	7-9	Blue	\$8.95
1322	9-11	Blue	\$8.95
1323	11-13	Blue	\$8.95

THE RONDINE JUNIOR

The Rondine Junior incorporates all the features of the professional Rondine fins in sizes to fit young children and offer comfortable, light-weight construction.

CAT. NO.	SIZE	COLOR	PRICE
1372	1-2	Blue	\$6.95
1373	2-3	Blue	\$6.95
1374	3-4	Blue	\$6.95
1375	4-5	Blue	\$6.95

THE WATER DOGS

The Water Dogs combine high quality and professional design for maximum durability. They feature a soft rubber compound, adjustable straps and non-slip safety buckles.

CAT. NO.	SIZE	COLOR	PRICE
1302	Up to 6	Blue	\$4.50
1303	4-8	Blue	\$5.50
1304	8-13	Blue	\$5.95

A—CORONADO SWIM SET

A combination swim set consisting of Coronado Fins, Coronado Mask and Coronado Snorkel.

CAT. NO.	FIN SIZE	PRICE
1145	5-7	\$14.95
1146	7-9	\$14.95
1147	9-11	\$14.95

B—JR. SKINDIVER SWIM SET

A perfect combination for the beginning skin diver consisting of Water Dog Fins, Aqua Champ Special Mask and Sea Dive Snorkel. The Aqua Champ Senior Mask is substituted in No. 1142 Set.

CAT. NO.	FIN SIZE	PRICE
1140	Up to 6	\$6.50
1141	4-8	\$6.95
1142	8-13	\$7.50

DIVE MASKS

THE PINOCCHIO

The Pinocchio Masks with their unique nose design provide the diver with the ultimate in pressure compensating masks. The Pinocchio Deluxe "Clear-Ease" combines an all new mask design and larger lens to provide far greater visibility. The minimum air displacement allows up to 25% greater skin diving depth. The Pinocchio Masks also feature safety glass lens and a double feather edge to provide a comfortable and absolute leakproof seal. A new, larger non-return valve is incorporated in the Pinocchio Deluxe "Clear-Ease."

PINOCCHIO SUPER COMPACT (not shown)

CATALOG NO. 1243 COLOR/BLACK PRICE \$9.50

PINOCCHIO DELUXE "CLEAR-EASE"

CATALOG NO. 1244 COLOR/BLACK PRICE \$11.95

THE SEAVIEW COMPETITION

The rectangular shape and slanted lens of the Seaview Competition is designed to provide the maximum in underwater vision. Features include "Snap-Lok" stainless steel band, safety glass lens, neoprene nose pad, feather edge seal and a new flexible head strap for greater comfort. A large non-return valve is incorporated into the Seaview Competition "Clear-Ease."

SEAVIEW COMPETITION

CATALOG NO. 1229 COLOR/BLACK PRICE \$6.95

SEAVIEW COMPETITION "CLEAR-EASE"

CATALOG NO. 1230 COLOR/BLACK PRICE \$8.95

THE STABILIZATOR

The unique finger well design for pressure compensation, super fine feather edge seal and soft comfortable fit has made the Stabilizator one of the nation's leading masks. Features include "Snap-Lok" stainless steel band and safety glass lens. A simple, efficient non-return valve is incorporated in the No. 1261 Stabilizator and an enclosed non-return valve is incorporated in the No. 1262 Stabilizator.

STABILIZATOR

AQUA CHAMP

MEDUSA

THE CORONADO

The Coronado is a new light weight professional mask designed for maximum comfort and fit. Features include "Snap-Lok" stainless steel band, safety glass lens and feather edge seal.

CORONADO

CATALOG NO. 1215 COLOR/BLUE PRICE \$3.95

THE CRESSI STAR

A full adult size mask molded of a special soft rubber compound providing perfect fit and comfort. Features include "Lens-Lok" band, clear styrene lens and feather edge seal. Ideal for use in swimming pools.

CRESSI STAR

CATALOG NO. 1228 COLOR/BLUE PRICE \$3.95

THE SQUALE

The Squale is one of the world's most popular masks because of the extra softness and durability provided by a special rubber compound. Features include "Lens-Lok" band, safety glass lens and super fine feather edge seal. An ideal mask for the smaller face diver.

SQUALE

CATALOG NO. 1225 COLOR/BLACK PRICE \$4.95

THE ESPADON

The Espadon is a professional mask of high quality and light weight designed primarily for smaller faces. Features include "Snap-Lok" stainless steel band, safety glass lens and feather edge seal.

ESPADON

CATALOG NO. 1220 COLOR/BLUE PRICE \$4.50

THE OSTRICA

The Ostricas are the only high quality, professionally designed masks available to fit small children. Features include "Lens-Lok" band, safety glass lens and feather edge seal.

OSTRICA JUNIOR

CATALOG NO. 1239 COLOR/BLUE PRICE \$4.25

OSTRICA BANTAM

CATALOG NO. 1240 COLOR/BLUE PRICE \$3.95

Well fitting junior size masks molded of high quality rubber with clear styrene lens.

AQUA CHAMP SENIOR

CATALOG NO. 1202 COLOR/BLUE PRICE \$1.95

AQUA CHAMP SPECIAL

CATALOG NO. 1201 COLOR/BLUE PRICE \$1.50

THE MEDUSA SNORKEL MASK

A full face mask made by Cressi to provide the ultimate in skin-diving enjoyment. The Medusa is molded of a soft rubber compound that assures a super fine feather edge seal. Features include safety glass lens and built in snorkels with double action valves.

MEDUSA SNORKEL MASK

CATALOG NO. 1235 COLOR/BLUE PRICE \$10.95

GOGGLES & SNORKELS

SEA DIVE GOGGLES

A high quality professionally designed goggles with feather edge seal, safety glass lens and steel rims.

SEA DIVE GOGGLES

CATALOG NO. 1109 COLOR/BLACK PRICE \$4.95

AQUA PRO GOGGLES

Designed for maximum comfort and safety featuring safety glass lens and feather edge seal.

AQUA PRO GOGGLES

CATALOG NO. 1107 COLOR/BLACK PRICE \$2.95

SNORKELS

The snorkel, used primarily by skindivers, is also an important safety device to the SCUBA diver who surfaces with an empty cylinder. It enables him to breathe normally during that "long swim back to the boat."

THE COMPETITION

The Competition combines the advantages of a flexible snorkel with a truly comfortable "right angle" mouthpiece for less drag. A recessed non-return valve is incorporated in the Competition "Clear-Ease" so that residual water is purged with each exhalation. The Competition Snorkels are equipped with "Safety-Glo" tops for water safety.

COMPETITION "CLEAR-EASE"

CATALOG NO. 1436 COLOR/BLACK PRICE \$3.95

COMPETITION

CATALOG NO. 1437 COLOR/BLACK PRICE \$2.95

THE HAITI

The choice of the professional in style and construction. Made of a one piece rubber elbow and tube with a soft flexible mouthpiece. The Haiti is equipped with a "Safety Glo" top for water safety.

HAITI

CATALOG NO. 1432 COLOR/BLACK PRICE \$2.10

THE CRESSI DELFINO

Constructed of a one piece rubber elbow and soft mouthpiece with a rigid plastic center pipe and upper section of gum rubber. Now equipped with a "Safety Glo" top for water safety.

CRESSI DELFINO

CATALOG NO. 1430 COLOR/BLACK PRICE \$2.10

THE CORONADO

A professional high quality snorkel constructed of a soft mouthpiece and elbow with a durable rubber tube.

CORONADO

CATALOG NO. 1438 COLOR/BLACK PRICE \$1.95

SCUBAIR SONIC "300"

HEALTHWAYS

**SAFEST REGULATOR AVAILABLE—
WARNS YOU AND YOUR DIVING
PARTNER YOU ARE BREATHING
RESERVE AIR.**

FIRST STAGE: The Scubair Sonic "300" is the most advanced in engineering and design of any regulator in the diving industry. No other regulator incorporates these outstanding features: Loud, audible alarm device indicating the minimum reserve level of 300 p.s.i. that continues to operate on each inhalation • Fully automatic reserve mechanism eliminates any manual manipulation necessary in "J" type reserves • **WITH THE SCUBAIR "300" THERE IS NO POSSIBILITY OF THE DIVER FORGETTING HE IS BREATHING RESERVE AIR** • Elimination of pull rod assures full tank of air each time cylinder is filled • New straight line design internal yoke screw • High pressure outlet for attaching a submersible pressure gauge • Low Pressure outlet for attaching additional second stage for training purposes • Chromed brass and stainless steel construction.

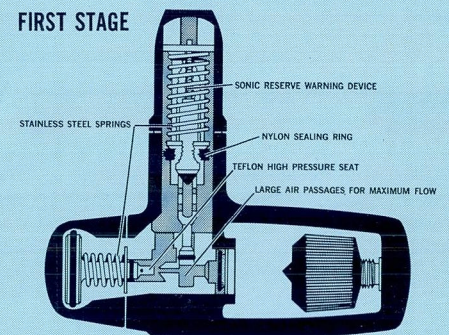

SECOND STAGE: The Scubair "300" second stage incorporates a "downstream" demand valve mechanism and balanced Venturi system engineered to provide the diver with a maximum air supply at any depth with minimum inhalation effort. The downstream valve mechanism also serves as a safety relief valve in case of an over pressure in the air supply hose. The second stage also features: Double exhaust valves • Contour air exhausts • Recessed purge button • "Quik-Klip" to facilitate inspection and maintenance • Leak proof "O" ring seal • Chromed brass and stainless steel construction.

**SCUBAIR SONIC "300" COMPLETE
CATALOG NO. 1663**

PRICE \$90.00

FIRST STAGE

SCUBAIR "J" & SCUBAIR

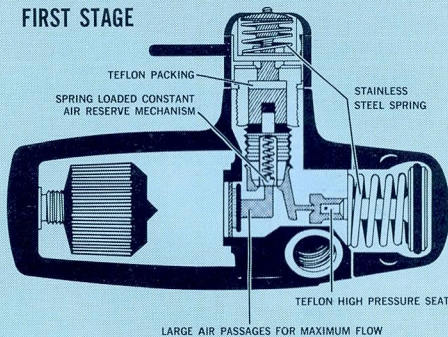

SCUBAIR "J"

SCUBAIR

SCUBAIR "J" ELIMINATES EXPENSIVE RESERVE TANK VALVES

FIRST STAGE: The Scubair "J" first stage incorporates a spring loaded constant air reserve mechanism providing the diver with a 300 p.s.i. constant air reserve even though his cylinders are not equipped with reserve valves. The first stage also features: New straight line design internal yoke screw • High pressure outlet for attaching a submersible gauge • Low Pressure outlet for attaching additional second stage for training purposes • Chromed brass and stainless steel construction.

FIRST STAGE

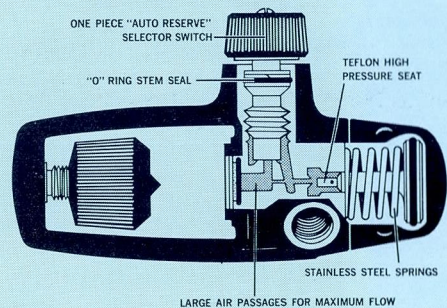

SCUBAIR "J" AND SCUBAIR SECOND STAGE

The Scubair "J" and Scubair second stage incorporates a "downstream" demand valve mechanism and balanced Venturi system engineered to provide the diver with a maximum air supply at any depth with minimum inhalation effort. The downstream valve mechanism also serves as a safety relief valve in case of an over pressure in the air supply hose. The second stage also features: Double exhaust valves • Contour air exhausts • Recessed purge button • "Quik-Klip" to facilitate inspection and maintenance • Leak proof "O" ring seal • Chromed brass and stainless steel construction.

SCUBAIR THE MOST EFFICIENT AND RELIABLE REGULATOR AVAILABLE

FIRST STAGE: The Scubair first stage incorporates a manually operated air reserve selector which enables the diver to adjust his regulator to the automatic depth compensated position ("K" valve) or to the "J" valve position if the divers tank incorporates a constant air reserve valve. The first stage also features: New straight line design internal yoke screw • High pressure outlet for attaching a submersible gauge • Low pressure outlet for attaching an additional second stage for training purposes • Chromed brass and stainless steel construction.

SCUBA STAR TD

SCUBA

SCUBA STAR TD* NOW TOTAL DEMAND FOR EASIER BREATHING

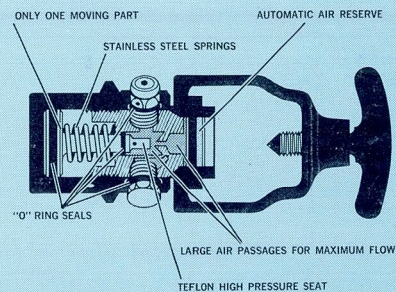

FIRST STAGE: The Scuba Star TD* first stage, with only one moving part, has proven to be the most outstanding regulator available in function, simplicity and maintenance. The first stage features: A safety relief valve which eliminates the possibility of over pressurizing the regulator • High pressure outlet for attaching a submersible gauge • Chromed brass and stainless steel construction.

SECOND STAGE: Healthways has eliminated the tilt valve mechanism and replaced it with a new "downstream" demand valve and balanced Venturi system to provide the diver with a maximum air supply with minimum inhalation effort. The downstream demand valve also serves as a safety relief valve in case of over pressure in the air supply hose. The second stage also features: Double exhaust valves • Contour air exhausts • Recessed purge button • "Quik-Klip" to facilitate inspection and maintenance • Leak proof "O" ring seal • Chromed brass and stainless steel construction.

TANK ASSEMBLIES

Healthways' tanks are drawn from Alloy Steel as required by I. C. C. (Interstate Commerce Commission) specifications. Healthways uses a Chromiummolybdenum Steel, A.I.S.I. No. 4130, which provides the strength and other physical characteristics required by the I.C.C. There are three tests performed to prove the strength and ductility of the metal; Tensile, Crush and Hydrostatic. All cylinders are continually checked to meet Healthways exacting requirements to ensure proper wall-

thickness, threads, interior and exterior conditons.

Healthways Safety Yellow tanks are first etched primed to ensure an even bond, then primed again with a Synchrochrome coating for added rust resistance and then a final coat of yellow epoxy for a super fine smooth finish.

All Healthways tanks incorporate 3/4" "O" ring straight pipe threads for easy inspection and maintenance.

CRESSI MACH 1.1 SPEARGUN

The Mach 1.1 is a lightweight, powerful compressed air speargun designed by Cressi, the pioneer of internally powered spearguns. A unique shaft propulsion and cylinder seal design maintains a constant pressure of 250 p.s.i. to provide the diver with over a years supply of air before recharging. The air cylinder pressure can be increased to 23.5 atmospheres by simply pumping more pressure into the compressed air cylinder. The spearshaft is inserted in the air tight barrel until the trigger is engaged and the Mach 1.1 is then ready for firing.

The Mach 1.1 also features: Positive thumb operated safety • Special shock absorbing propulsion mechanism • Center grip handle and rear counterweight for perfect balance • Variable power pre-set by the diver before entering the water.

SURFBOARDS & SKI-DOOTERS

SURFBOARDS

Everyone involved in producing Healthways' Custom Surfboards are ardent surfers, each with more than five years experience surfing the greatest surfing beaches of the world. They take pride in their craftsmanship and build surfboards with the same care they would use if they were building their own.

Healthways' Custom Surfboards are hand crafted throughout the entire production cycle—they are truly a custom built board. The Glas-Cor blank is constructed of full 4 lb. density water blown polyurethane foam to retard discoloration and provide maximum dimensional stability. The blank is then bombarded with multiple layers of glass fibres for maximum strength and laboriously hand sanded to its final shape. Heavy 14 oz. Volon fiberglass cloth is hand applied over the entire board and extends to allow a double overlap on the rails for added strength and protection.

Three layers of polyester resin are applied over the fiberglass cloth and meticulously hand sanded to a super fine finish. The color resin is applied in custom designs in a dust free chamber. An additional layer of polyester resin is applied to provide a high gloss finish for added beauty. A detailed inspection is made before final packaging.

CUSTOM MACH 3

Additional features include: High density foam nose and tail block for added strength and durability • Finish is wet-sanded and buffed to provide the ultimate mirror-like finish • Unique 1/4" mahogany double stringers top and bottom • Solid fibreglass speed skeg.
