"SCUBA" REGULATORS

(Self Contained Underwater Breathing Apparatus)

INTERNATIONAL DIVERS CORP. produces in Canada top quality , 1 Stage Venturi Fibreglass , 1 Stage Venturi Chrome , 2 Stage Single Hose , 2 Stage Navy and 2 Stage Venturi regulators . These regulators feature an off centre mouthpiece , which gives perfect comfort , and does not lift the mask ; non - return valves each side of the mouthpiece ; new type hoses , which are longer , more flexible and almost impossible to kink ; a ring housing clamp , for smarter appearance and easier servicing ; extra strong yoke , all moulded diaphragm ; O ring seal on the two stage bodies ; heavier gauge metal housings ; bright chrome finish etc. etc. etc. etc. .

ALL INTERNATIONAL DIVERS " SCUBA " REGULATORS ARE GUARANTEED FOR ONE YEAR FROM DATE OF PURCHASE !

D 1 F ONE STAGE VENTURI (FIBREGLASS)

This demand regulator reduces the high pressure air from the cylinder , in a single stage to breathing pressure . Breathing is made extremely easy by the venturi action . The initial effort of breathing directs a flow of air from the venturi jet into the inhale hose , thus creating a partial vacuum which activates the diaphragm and releases more air without additional effort . The one stage fibreglass is the simplest and most rugged regulator built .

D 1 C ONE STAGE VENTURI (CHROME)

The same as the D 1 F except for bright chrome housing .

D 2 N TWO STAGE NAVY

A regulator of the basic design which has enjoyed predominant use by most of the major navies of the world , for over a decade - most suitable for diving under ice .

D 2 V TWO STAGE VENTURI

Similar to the D 2 N , but with venturi action for easiest breathing .

D 2 S TWO STAGE " SCUBAMATIC "

A type of regulator now favoured by many divers , featuring the second stage in the mouthpiece ; off - centre swivel action mouthpiece ; exhaust on the side to prevent bubbles from obscuring the divers vision , and fibreglass housing for lightness and strength .

D 2 P TWO STAGE " HEINKE " VENTURI .

A Two stage regulator with additional acceleration on the second stage , with provision for fitting a pressure gauge .

The " SCUBA " demand regulator automatically controls the flow of air from the high pressure cylinder to the diver . It releases air only on demand . i.e. when the diver breathes . There is no wasteful continuous flow of air . The demand regulator also automatically supplies air at a higher or lower pressure as required to equal the pressure of the surrounding water .

"SAFE T NECK FLOAT"

(A PRODUCT OF INTERNATIONAL DIVERS CORP.)

\$11.95

INTERNATIONAL DIVERS' "SAFE-T-FLOAT" IS THE VERY BEST MADE, NOT ONLY FOR THE SKINDIVER BUT ALSO FOR THE FISHERMAN, HUNTER, YACHTSMAN, CONSTRUCTION WORKER ETC., ETC.

.....
COLLAR TYPE FLOAT KEEPS THE HEAD OUT OF THE WATER.
.....

MAY BE WORN DEFLATED AROUND THE NECK WITHOUT INTERFERING WITH FREEDOM OF MOVEMENT.
.....

FEATURES 1" NYLON BELT TO FASTEN AROUND WAIST.
.....

CAN BE INFLATED BY MOUTH OR BY CO2 CARTRIDGE.
.....

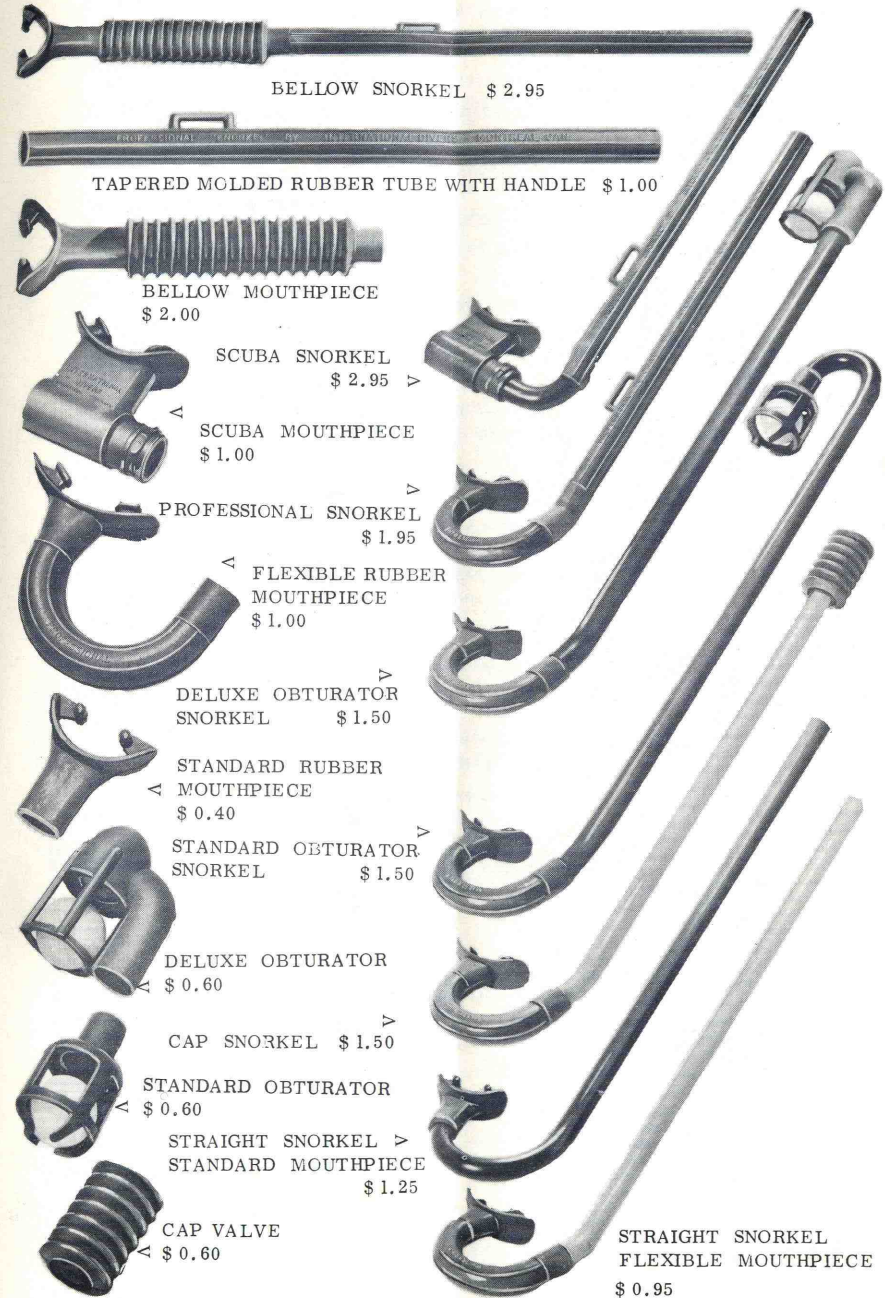

USES STANDARD CO2 CARTRIDGES OBTAINABLE ANYWHERE (SODA FOUNTAIN TYPE)
.....

EXTRA HEAVY, SUN AND SALT WATER RESISTANT, PURE GUM RUBBER MATERIAL.
.....

CAN BE EASILY REPAIRED WITH ANY TIRE REPAIR KIT.

You may enjoy the pleasures and thrills of underwater swimming with only very inexpensive basic equipment, consisting of a mask, fins and snorkel. With this equipment it is possible to make, not daring deep sea explorations, but tours of enchantment to a new world of fish and rocks and beautiful underwater plants, just below the surface. You may feel the sensation of escaping gravity, of floating through space.

FOAM SUIT - COMPLETE

Expertly tailored from 3/16 " double skin foam neoprene, every suit is made to measure, to ensure a perfect fit

INTERNATIONAL DIVERS' foam suits are expertly tailored from 3/16 " double skin foam neoprene. Every suit is made to measure to ensure the perfect fit, which is essential if a wet suit is to give maximum protection against cold water, and which cannot be obtained with ready made suits.

Available in red, yellow, turquoise and black.

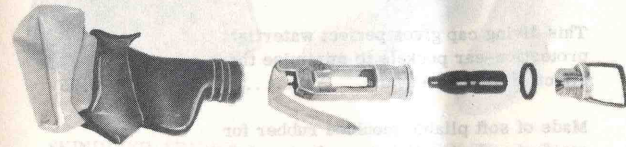

Each complete suit includes jacket, pants, hood and boots. The hood has a special wide collar, which fits inside the top of the jacket to give better insulation. The jacket can be fitted, if requested, at no extra charge, with International Divers' new moulded latex underarm insert for greater flexibility and comfort. Heavy corrosion resistant zippers are fitted at the ankles, wrists and front of jacket.

COMPLETE SUIT	\$80.00

PORTABLE HIGH PRESSURE AIRCOMPRESSORS

"NEREUS" \$ 650.00 COMPLETE

Ultra pure air and reliable working efficiency

3000 P.S.I. 2 cu ft. Minute 95 lbs, forced cooling, piston rings on low pressure stage, protected cylinders, solid base, transparent oil container, either gasoline or electric driven, this best of all compressors is based on a 40 years experience of the Radaelli Co Italy in the field of air compressor manufacturing.

The "NEREUS" compressor comes complete with oil & water separator, Chemical filter, filling adaptor for any fitting (specify use) spare valve seats, O rings and packings ready to serve you with ultra pure air at a price far below any other compressor made. Complete with Gasoline or Electric motor only \$ 650.00

The "NEREUS" compressor will be supplied with all accessories for charging air cylinders, as well as a sufficient number of normal spare parts and maintenance tools.

A "Continental" gasoline motor is employed of U.S. origin, which in addition to its high efficiency, guarantees the availability of current spare parts in any part of the world.

The incorporation of three safety valves and other automatic devices eliminates the possibility of mishaps even with faulty or maloperation.

The operation of the special "NEREUS" compressor filtration system has been most carefully and strictly examined, and an official certificate states that the filter of the "Nereus" Compressor ensures the supply of clean air during the whole period of normal operation (APPR. 30 HRS).

Service, Parts, Compressor Oil, Activated carbon and immediate delivery of compressors direct from INTERNATIONAL DIVERS CORP. Montreal the SOLE DISTRIBUTOR for Canada.
